Mission Statement

We, the people of Holy Rosary, are called to be a Church with a living God and a dynamic heritage; a heritage that encompasses the beliefs and tenets of the Roman Catholic faith as well as the characteristics of the African American culture. We are called to be a welcoming beacon of hope to parishioners and the surrounding community for continued and sustainable spiritual growth to enhance and strengthen our relationship with God, address social issues, and provide parishioners with the necessary skills for increased evangelization.

Question of the Week
April 20, 2025

All catechesis flows from the liturgy nothing is as important as what happens at the Sunday Mass. Christ is present in four fold ways, in the bread and wine, the Presider, the word of God and the community gathered. But for a lot of people the Sunday mass and readings and homily goes too quickly. In order for people to think back on the mass, we will have the "Question of the Week". The purpose of the "Question of the Week" is to bring together people of all ages to learn about and share their faith. The question will be relating to one of the readings from Sunday's Mass. The question will allow different ministry groups and families to break open the word and share faith throughout the week.

Question of the Week:

Adults: *In what way have you risen from "deadness" in your life?*

Children: *Resurrection reminds us that what looks bad can lead to something good. What has resurrected, or gone from bad to good, in your life over the past year?*

Reading 1: Acts 10:34a,37-43

Reading 2: 1Col 5:6b-8

Gospel: Jn 20:1-9

Today as we celebrate the feast of Easter, like Mary Magdalene and the Disciples we find the challenge of also seeing and believing the Resurrection.

As you donate your gift to the Society of Saint Vincent de Paul, you help those who are in need to "see and believe" in the Resurrection.

AIDS Spiritual Reflection

This is the day the Lord has made; let us rejoice and be glad!

HIV was first identified forty years ago, and since then, the medical community has made significant progress with testing, treatment, and developing a vaccine and a cure. While there is no cure or vaccine yet, researchers have recently made excellent headway using gene therapy and other avenues.
